Each week, our AOTH At Home content will revolve around a specific theme. This week's theme is **Ice Capades**! Below are some fun activities you and your little one(s) can do at home with ice.

**Frozen Mystery**
Freeze some small toys in an ice cube tray, allow your child to chisel away and/or slowly melt the ice so they can save their friends! For a fun trick, you can also use salt and water to help melt ice!

**Fruity Pops**
A fun edible creation- take your little one's favorite flavor of juice, some sliced fruit of your choice, and freeze into easy healthy popsicle treats! Your little one will love doing this with you, plus everyone loves a snack!

**Water and Ice Sensory Bin**
Have your child sort out ice from water. You can dye the ice with food coloring so your little one can see what happens as the ice melts in the bin!

**Tundra Trek**
Create an ice tower out of objects in your home, pretend to be polar bears, seals, and penguins on a blustery adventure!
